

Curriculum and Planning at Aire View Infant School

The children are at the heart of our curriculum. We believe that every child should have the opportunity to develop and build their self-esteem and self-confidence.

We encourage children to have high aspirations and strive for the best. We want our children to be responsible and effective by the time they leave Aire View Infant School and move on to the next phase of their education at the Junior School,

Our main aim is to provide exciting, stimulating topics in which the children can become fully absorbed using a cross-curricular approach. We strive to encompass as many curriculum subjects into each topic, making them relevant and meaningful for the children.

We use a number of different approaches to explore and deliver the topics to ensure we enable our children to develop all the skills they need to be confident and successful learners. The children are involved in the planning stage of new topics and we value their ideas and contributions; we believe that children learn best when they are able to steer and direct their own learning. We want our children to be inquisitive and passionate about their learning and spark a desire for lifelong learning.
