

Year 1 Learning Leaflet

Topic

Geography - We will be learning all about the solar system and the planets within it looking at their unique features and how they differ from Earth.

PE- Participate in team games, developing simple tactics for attacking and defending (Football).

ICT- Animation and using technology to find and present information.

History—We will learn about the history of space travel and look in detail at the lives of significant individuals who have contributed to national and international achievements for space travel.

Art and Design - Use a range of art techniques using different mediums linked to our space topic.

PSHE—Me and my relationships.

Welcome back! The weeks holiday went so fast, but now we are back we are feeling refreshed and ready for an action packed half term. This leaflet will tell you all about what your child will be learning. 26.2.20

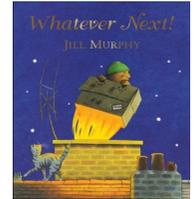

Moon Zoom!

About this topic

This topic will be exploring outer space and space travel. We will be looking at a variety of space literature- both fiction and non-fiction text. Are you ready for take-off? Hold tight... 5-4-3-2-1...

English

As well as daily phonic sessions, we will explore a variety of space related fiction text and discover the solar system through non-fiction texts.

We will also continue to focus on children using capital letters, full stops, conjunctions and adjectives in their writing.

RE

In RE this term we will be learning about how Jesus is special to Christians and how the Easter story shows this. We will also be finding out about some of the traditions and symbols associated with Easter.

Maths

Addition and subtraction: Relating addition and subtraction facts to 20. Adding and subtracting numbers crossing and not crossing the 10.

Measures: Using non-uniform units to measure and compare weights. Tell the time to the hour and half hour.

Dates for the diary

Topic showcase— Tuesday 31st March

Easter performance— Thursday 2nd April (9.30 am and 2pm)The tickets will be available from the office. Watch out for a ping about this!

School closes— 3rd April.

Please note every Wednesday a school ping will be sent to the parent/carer of children who have been chosen for star of the week, inviting you to celebrate with us in the Friday assembly.

Science

Everyday Materials—

Distinguish between an object and the material from which it is made.

Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock.

Describe the simple physical properties of a variety of everyday materials. E.g. bendy, stretchy, waterproof, hard, soft etc.

The children will have the challenge to make a waterproof covering for our alien visitors and describe a variety of materials found on Earth naming them and describing them using words that describe their physical properties.
