

Week 12: w/c Monday 29th June

Year 6 children are eligible to return to school. For those not attending, we will continue to offer remote-learning to those who are remaining at home. This week's home learning is as similar as possible to the learning which will be taking place in school. For any parents looking for additional work for their children, there is a comprehensive list of website links which have a wide-range of learning activities underneath the week schedule on this page.

Mr. Pickering and Miss Lowes are now teaching children in-school so Mr. Bolland will be preparing and responding to the home learning tasks for all year 6 children.

All of the activities are accessible using Seesaw (please contact your child's teacher via Class Dojo if your child is struggling to access Seesaw). All activities will be posted at 9am, including a daily 'Think' and PE activity.
