

Year 3 Learning Leaflet

Topic

Art and Design - Sketching zoomed fruit and vegetables.

Geography - Locating countries on a map to find where our food comes from. Identify trade links and comparing farming between countries.

D&T - Design, make and evaluate our own healthy smoothies. Try out and experiment with different recipes.

Computing — Exploring graphs and databases and using them to answer questions.

PSHE— positive relationships, building friendships, being a good friend and celebrating our differences.

Scrumdiddlyumptious!

Welcome back to Year 3 after a lovely half-term. We are glad to see the children back in school with a positive attitude and we can't wait to get immersed into our new topic: Scrumdiddlyumptious! This leaflet will tell you all about what your child will be learning.

The children will be learning all about different foods and their nutritional value. They will look at where food comes from. They will practise their basic cooking skills and try out multiple recipes. They will use this learning to design their own healthy smoothie.

English

This half term we will be reading a mixture of fiction and non-fiction books. We will be writing our own nonsense poems based around food.

For our non-fiction work we will be writing an explanation about how a particular food is produced.

For our fiction work we will be looking at a popular Christmas story and writing our own scripts.

Maths

This term in Maths the children will:

Addition and subtraction using formal column methods.

Multiplication and division.

RE

In RE this half term the children will learn about the meaning of Christmas, including Christmas past and present.

Science

The children will be learning all about nutrition. They will carry out different investigations involving different foods.

Don't forget!

- Times table rock stars and Numbots, these logins will be stuck in the back of Reading Records.
- Regular reading, we suggest you aim for the 3 times a week as you did in KS1 (even if it is the same book).
- Creative homework tasks, we would love to see these before Monday 14th December.
