

Creative Home Learning Ideas

Flow

Below are some ideas based around our new topic. Please read the ideas to your child and let them choose which activities they would like to complete at home with you or on their own. Try to complete at least 2 activities by the end of the half-term. We would love to see your amazing home learning so make sure you send us photos on dojo.

- How many songs can you list that mention water or rivers? Get your family and friends to help, and then have some fun singing a selection!
- Visit a river and test the flow by playing Pooh sticks. It's easy... just drop a stick from a bridge into the water and let it race your friends' sticks under the bridge!
- Why do you think so many artists are inspired by water? Draw, paint or take photos of a beautiful river scene.
- Grow something edible. Potatoes are easy to grow and tasty to eat!
- Be a landscape gardener! Visit a garden centre and look at water features. Could you make one in your garden? You'll need water, soil, pipes, jugs and maybe some pretty stones.
- Go pond dipping. Take a net and a light-coloured bowl or bucket to get a good view of your collected specimens. Remember to put back any creatures you catch.
- Make a rain gauge and use it to measure rainfall in your garden.
- Put on wellies on a wet day and go on a puddle expedition. See who can find the biggest puddle, then splash through it!
- Place different items in a puddle or water-filled container to see which ones float and which ones sink. Maybe not your adult's mobile phone.
- Experiment with water current. See if you can make things move in or across water without touching them.
- Make rainbows with a garden hose on a sunny day. Are you dressed for a water fight?

Have fun and send a Class Dojo to any of the Year 3 Team if you have any queries regarding home learning activities.

Please continue to read at home with your child as much as possible (at least 3 times per week) and sign your child's reading record. Please ask them questions about what they have read to help develop their comprehension and understanding.

Thank you for your continued support, it makes such a difference to your child to work together as a 3 way partnership – Parent, Child and Teacher.
