

Year 4 Learning Leaflet: Summer 2

Topic

In *Geography*, the children will be learning the geographical features of mountains and identifying and comparing key mountain ranges.

They'll also explore Ordnance Survey maps, looking at grid references, symbols and building their own contour maps.

In *Art*, we will learn how to sketch mountains and use tissue paper to layer mountain scenes.

Maths

In *Maths*, we will finish off looking at decimal numbers before looking at time and money. These topics offer great opportunities for adults at home to support the learning. Please encourage the children to calculate with money and tell the time.

Dates for the diary

22nd June: trip up the Nab

9th July: Trip to High Adventure

22nd July: Report Day:

Misty Mountain Sierra

In our final topic of Year 4 we will be taking to the mountains as we explore the misty mountain sierra.

Children will learn about major mountain ranges of the UK, Europe and the world; discover the features of mountains; draw them, map them and naturally, we'll also be going up Silsden's very own peak: the Nab!

RE & French

Our *RE* question is 'Do people need to go to church to show they are Christians?'. In *French*, the children will learn about habitats.

Computing

In *Computing*, we will be looking at spreadsheets and line graphs, as well as some topic linked online mapping.

English & Reading

Our *Guided Reading* text links to our school trip as we follow the adventures of Tim in 'Cliffhanger'.

In *English*, we will be focussing on non-fiction texts that link to our topic. We will look at how authors present their work, how non-fiction books can be used for reference, and writing our own non-fiction texts.

Science

Our main area of learning will be looking at the lifecycles of humans and other animals.

Within this, we will be focussing on the key skills shown when working scientifically.
