

Spring 2  
Year 1

# Year 1 Learning Leaflet

## Moon Zoom

### Maths

This half-term in Maths we will be focusing on measurement. Throughout this, the children will learn about how to measure the length and height of items, as well as their weight and volume.

We will also be encouraging children to continue their progress with NumBots. This is an online maths game that we launched before Christmas and it will continue to support your child as their mathematical skills grow.

### PSHCE/RE/Music

PSHCE – All our PSHCE learning this half-term will be around the theme 'Me and my relationships'.

RE – Our RE learning will be centred around the question 'Why was Jesus welcomed like a King on Palm Sunday?'

Music – The children will focus on continuing to improve their musical skills of listening, appraising and performing. The lessons may also sometimes link to class topics.

### Science

This half-term in Science we will be focusing on the topic 'Everyday Materials'. The children will learn about different types of materials and with this knowledge, will work towards answering the key question 'Which material should we use to build Baby Bear a rocket?'

### About this topic

Our next topic this year is Moon Zoom and we are asking the big question...

*How do we visit the moon?*

We will be exploring the history and past events involving moon landings, with a particular focus on Neil Armstrong.

We look forward to receiving lots of creative home learning as the children immerse themselves in the topic.

### English

This half-term in English we will be exploring the text 'Whatever Next!', by Jill Murphy and will be learning how to re-write our own adventure stories based on the book. We will then learn how to write our own poems based on the story 'The Smeds and the Smoos', by Julia Donaldson.

This half-term we will continue to develop our phonetic knowledge through our daily phonics sessions. We will also use our Reading Club sessions to continue to build our reading fluency and begin to explore simple elements of reading comprehension. We will continue to foster a love of reading through sharing stories, engaging in talk about books, performing poetry and singing some key songs.

### Topic

Art and Design – Creating rockets and water colour planets.

Design Technology – Rocket mechanisms

History – Exploring Neil Armstrong.

PE – Football and Hockey

Computing – Create a short animation of a rocket in space.

### Key Dates

Tues 1<sup>st</sup> March- First day of half-term.

Tues 1<sup>st</sup> March – Parents Evening.

Thurs 3<sup>rd</sup> March – Parents Evening.

Thurs 7<sup>th</sup> April – Topic Showcase (tbc).

Fri 8<sup>th</sup> April – Final day of half-term.
