

Year 6 Learning Leaflet

English

Our class novel this half-term will be 'Framed' by Frank Cottrell Boyce. We will enjoy this humorous story together and respond to it in different ways during guided reading, topic and English sessions.

For this unit, the children will be asked to create a brochure advertising the fictional village from the text above.

In addition to this, we will also focus on playscripts towards the end of the book.

Spelling work - focussing on key word patterns - will continue to take place weekly.

Maths

Calculating the missing angles in triangles, quadrilaterals and other polygons.

Drawing 2D shapes accurately.

Looking at and making nets of 3D shapes.

Revision of arithmetic and reasoning style questions.

Summer 1: Gallery Rebels

And here we are, already in the final term of the year!

In fact, it won't have escaped your notice that for Year 6 pupils this means the final term at Silsden Primary School. This is a big term for the Year 6 children as they will be taking their SATS in a few weeks. We are hugely confident that the children will do extremely well but the main thing is that they don't panic and try their best!

Our topic for Summer 1 is called Gallery Rebels. This unit is very much art-based and is intended to allow children to be creative, to develop skills and to express themselves as well as to learn about great artists and their work.

Dates for the diary

May Bank Holiday - Monday 2nd May

SATS week: w/b Monday 9th May

Topic and Home Learning due - w/b Monday 23rd May

Break up for half-term - Friday 27th May

Other subjects

RE - Islam - does belief in life after death help Muslims lead good lives?

French - Myself and the world (Year 6 will also be introduced to other Western European languages)

PE - Basketball and Cricket

Music - Exploring the musical elements

Topic & Science

Art, Design and Technology and Computing

Art History - key art movements and important artists

Impressionism - learning key Techniques (layering paint, short brushstrokes) and appraising famous artworks.

Expressionism - learning key techniques (swirling brushstrokes) and appraising famous artworks.

Surrealism - learning key techniques (cut-up technique and automatic drawing) and appraising famous artworks.

Pop Art - creating a digital self-portrait

Final Project - creating an original painting (on canvas) inspired by our topic!

Science

Use recognised symbols when representing a simple circuit in a diagram.
