

# Year 5 Learning Leaflet

## English

In the first unit of this half term we will be writing a narrative from the viewpoint of the children's favourite sportsman. We will be using present perfect and present progressive tense throughout and recapping parenthesis and relative clauses.

In the second unit of the half term, children will be creating a fact file on how to compete in their favourite sport. We are going to give the children freedom with this write, giving them the option to choose from all the skills they have learnt in Year 5.

## Maths

In this final half-term, we will be focusing on finishing our Maths units for the year. We will focus first on position and direction, decimals, negative number and converting units.

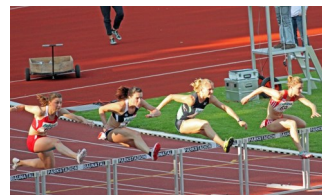

We will be continuing with our weekly arithmetic tests, which will consolidate their learning from the entire year.

Please also keep up the times table practice at home as this will help the children start Year 6 in the best possible way.

## Summer of Sport

### Welcome back to the final half-term!

Every summer the sporting world buzzes to life with a variety of showcase sporting events. From the Olympics, to the Euros, to Wimbledon and many, many more. This half term the children will get the opportunity to explore the historical roots of some of these sporting events and their locations and develop their drawing and painting skills based on a sporting superstar.

## Other subjects

RE - Learning question is: 'Does going to the mosque give Muslims a sense of belonging?'

PE - Tennis and Athletics

French - Holidays, Bastille Day, The Olympic games

Music - we are continuing to explore the key elements of music through performance, composition and appraisal.

Computing - Using Scratch to design a quiz which uses selection.

PSHE - our focus this half term is on 'Growing and Changing'.

## Topic

History - We will be exploring the historical roots of of a sport of our choosing.

Geography - We will be locating counties and cities in the UK.

Art & Design - We will be developing our drawing and painting skills by creating a portrait composition based on a sporting superstar of our choosing.

## Science

This half term, through our science unit 'Animals, including humans', children will learn how to describe the changes as humans develop to old age.

We will recap the key stages of a mammal's life cycle and explore the gestation periods of mammals. We will learn about foetal development, recap how the body changes through puberty and discuss the changes humans may experience during old age.
