

Contraptions

Competition

Can you think of a machine that would make your life easier?

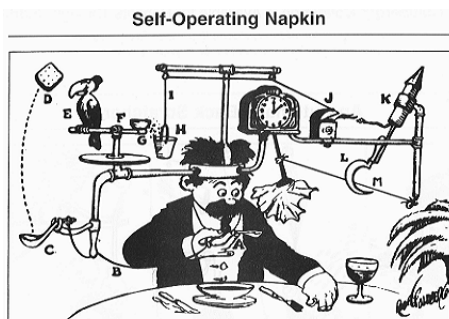

Maybe a machine to make your bed or tidy up your socks?

Use your imagination just like Wallace does.

All you need to do is draw a labelled design of your machine.

You could make a model of it too.

The prizes will go to the most detailed and imaginative designs

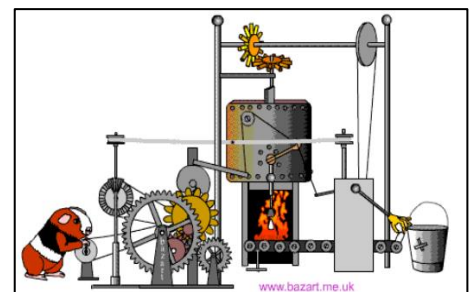

Think about:-

Where it gets its power from.

What it is made from.

How it is fastened together?

How does it move?

Draw your design on A4 paper and return it to Mrs Carling

by Monday 24th February
